

DECISION

Dispute Codes: CNC, ERP, MNR, RP, FF

This hearing was held in response to a successful application for review filed by the tenant. The tenant requested a review of a previous decision on the grounds that she had not been properly served with documents submitted by the landlord as supporting evidence. In that hearing, the tenant's application was dismissed and the landlord was granted an order of possession. That order, dated December 19, 2008 was suspended pending the outcome of this review.

Both the landlord and the tenant attended this hearing. The tenant said that she has already moved out of the rental unit and was therefore withdrawing her application for review. No new evidence has been given to support a finding that my previous Order should not be confirmed. Therefore the Order made December 19, 2008 in which the landlord was given an order of possession is confirmed.

Dated February 03, 2009.
