

INTERIM DECISION

Dispute Codes:

Landlord: OLC, RP and FF

Introduction

This application was brought by the tenants on October 19, 2010 seeking an Order for landlord compliance with the legislation and rental agreement, repairs to the manufactured home site and recovery of the filing fee for this proceeding.

At the commencement of the hearing, legal counsel for the tenants, with the concurrence of the landlord, stated that the present matter is so closely related to a pending application by another tenant, that the two applications should be heard at the same time.

As authorized by section 66 of the *Act*, I find that the two applications should be heard together at the time presently scheduled for the related application: December 2, 2010 at 11 a.m. and extended for two hours.

Legal counsel for the related applicant will receive a copy of this Interim Decision as verification of the changes to the December 2, 2010 hearing.
