CORRECTION DECISION

Dispute Codes CNC

The landlord applied for a correction of the decision issued on October 30, 2014 advising that although the landlord orally requested an order of possession during the hearing, I neglected to issue the order. I have determined that the landlord is entitled to the order of possession and have issued that order and a corrected decision.

This decision is made on authority delegated to me by the Director of the Residential Tenancy Branch under Section 9.1(1) of the *Residential Tenancy Act*.
